Applied Mathematics student from Far Eastern University specializing in **data sciences**. Skilled in data analytics, database management, and project execution. Recognized for strong **leadership, critical thinking, and communication skills**, with proven experience in student governance, research, and community engagement.

Professional Experience

President *Jun 2025 – Present*
FEU Institute of Arts and Sciences Student Council (IAS SC) - **Morayta, Manila**

- Serves as **Chief Executive**, leading strategic planning, governance, and data-driven student welfare initiatives.
- Oversees internal and external affairs, ensuring alignment with university policies and student needs.

Assistant Lead, Member Development *Jan 2025 – Present*
START DOST – Scholars Transforming Advancement and Research for Technology – **National Organization**

- Leads member development portfolio for DOST scholars through mentorship, workshops, and networking.
- Designs initiatives for needs-assessment training for scholar growth in research and technology advocacy.

Treasurer *Jun 2024 – May 2025*
FEU Institute of Arts and Sciences Student Council (IAS SC) - **Morayta, Manila**

- Chaired the Finance, Sponsorship, and Logistics Department of the council
- Managed financial records including budgets, proposals, and liquidations reports while overseeing fundraising initiatives and sponsorship negotiations.

Director *Jul 2023 – May 2024*
Data Analytics Department – FEU Central Student Organization - **Morayta, Manila**

- Spearheaded survey design, data analysis, and forecasting for student petitions and policies.
- Served as internal consultant on spreadsheets and databases (Google Sheets, Excel)
- Conducted student needs assessments and policy evaluations

Secretariat, Office of the Vice President for External Affairs *Oct 2021 – Jul 2022*
Adamson University Senior High School Supreme Student Government - **Ermita, Manila**

- Managed communications and paperwork for external affairs
- Organized events and promoted student government programs
- Collected and disseminated data relevant to student concerns.

Campus Ambassador *Nov 2021 – Jan 2022*
Kinobi

- Promoted Kinobi's career development platform via social media campaigns.
- Conducted a culminating marketing project to connect students to career opportunities

President & Founder *Jun 2019 – Mar 2020*
Eureka! Mathematics Coordinating Club – Polytechnic University of the Philippines Laboratory High School – **Sta. Mesa, Manila**

- Founded the first-ever high school mathematics club PUP Laboratory High School
- Led academic initiatives, meetings, and external representation

On-The-Job Trainee *Nov 2019 – Feb 2020*
Fe Del Mundo Training Center – **Banawe, Quezon City**

- Completed 150 hours of training in **database encoding, customer support, and materials preparation.**
- Built interpersonal and adaptability skills while supporting administrative operations
- Relevant coursework: Encoding Database, Handling Emails and Customer Support, Preparing Course Materials, and Running Errands.

Qualifications and Skills

Technical Skills

- Data Analytics & Visualization
- Advanced Spreadsheet (Excel, Google Sheets)
- Mathematics & Statistics Foundation
- Programming: **Python, R, SQL, C**

Organizational & Leadership Skills

- Strategic Leadership & Governance
- Project Management & Policy Development
- Communication (Written & Verbal)
- Organizational Finance & Sponsorship
- Problem-Solving & Critical Thinking

Academic History

Tertiary: **Far Eastern University** - **Morayta, Manila** — Aug 2022 – *Present*
Bachelor of Science in Applied Mathematics (Data Science Track)
*Current QPA:**3.46 / 4.00***

Secondary: **Adamson University** - **Ermita, Manila** — Aug 2020 – Jul 2022
Senior High School Diploma in Science, Technology, Engineering, and Mathematics (STEM) Education,
*GWA: **96.52 / 100.00***

Polytechnic University of the Philippines — Jun 2016 – Apr 2020
Laboratory High School - **Sta. Mesa, Manila**
Junior High School Diploma, Major in Entrepreneurship

Awards, Honors, & Scholarships

Merit Scholar — *Aug 2022 - Present*
Department of Science & Technology (DOST)

SDEV Excelerate 2025 Leadership Bootcamp — *Mar 2025*
Far Eastern University

- Best Presenter, Workshop 3: Scenario Creation & Decision-Making
- Best Group Presentation, Workshop 1: Who am I as a Leader?

Outstanding Director — *2023 - 2024*
Data Analytics Department – FEU Central Student Organization Batch 87 & Batch 88

Most Valuable Person (MVP) — *2023 - 2024*
Data Analytics Department – FEU Central Student Organization Batch 87

Academic Scholar — *2022 - 2024*
Far Eastern University

First Honor, Dean's Lister — *2022 - 2024*
Far Eastern University

With High Honors — *2020 - 2022*
Adamson University Senior High School

Professional & Personal Projects

Professional Projects

FEU Townhall on Blended Learning Modality — *2025*

- Spearheaded a student-led forum addressing challenges of the new blended learning setup; consolidated concerns and policy recommendations to FEU administration.

FEU Equitable Allocation Policy of IAS Organizational Funds — *2025*

- Institutionalized a fair and transparent budgeting system across IAS student organizations.

FEU IAS Sportsfest 2025: The Rise of Districts — *2025*

- Organized an institute-wide sports festival with district style competitions to foster community and wellness while securing nineteen (19) sponsorships to support the event.

FEU IAS Project BOOST 2024 — *2024*

- Spearheaded a Building Organizational and Operational Skills Training (BOOST) workshops on mastering spreadsheet, technical writing, and strategic marketing and creativity.

TamLuv: Program Matchmaking Website (FEU Preview 2024) — *2024*

- Developed a bumble-like digital wtool to match prospective students under IAS with suitable FEU academic programs.

Project ALAB: KrayoLove *2024*

- Supported an outreach program distributing educational kits to underserved children.

Project HOPE: Mathematics Literacy *2024*

- Provided mathematics tutorials to Persons Deprived of Liberty (PDLs) for rehabilitation and learning.

Institutionalized Evaluation of Members (FEU CSO) *2022*

- Designed a framework for performance and accountability evaluation of council officers that has been adapted by various organizations in FEU.

Support Group Campaings (AdU SHS-SSG) *2021- 2022*

- Proponent and co-proponent in advocacy campaigns on **Mental Health, LGBTQIA+ Rights, and Internet Safety** throughout the pandemic era.

Personal Team Projects

System Verite: A Multi-Factor Fraud Detection System for Banking Security *Ongoing*

- Developed an AI-powered fraud detection system integrating signature verification, facial recognition, and One-Time Password (OTP) authentication. The system enhances banking security by providing scalable, automated, and user-friendly multi-factor authentication to strengthen institutional trust and improving workplace productivity.

Beyond the Numbers: A Resampling & Bayesian Perspective on Dengue Burden in the Philippines by Age, Sex, and Region (2011-2015) *2025*

- Conducted an in-depth statistical study on dengue surveillance data disaggregated by age, sex, and region. Applied advanced methods such as bootstrap estimation, permutation testing, and Bayesian inference (MCMC, logistic regression) to quantify disparities and uncertainties in case fatality rates and disease burden across the Philippines.

Spotify Charts Business Intelligence *2024*

- Developed a business intelligence project leveraging Spotify Charts data to generate insights on artist performance, audience behavior, and streaming patterns. Focused on transforming raw chart data into actionable metrics using data visualization and analytics tools.

SignSense: A Filipino Sign Language (FSL) Detector *2024*

- Built a prototype system to detect and classify Filipino Sign Language gestures using Python, TensorFlow, Keras, and OpenCV. Implemented a Convolutional Neural Network (CNN) trained on collected FSL hand sign images with data augmentation and regularization techniques. The project addressed inclusivity by promoting accessibility for deaf communities in public, educational, and workplace settings.

TamBuys: FEU Student-Owned Marketplace *2024*

- Designed and proposed a virtual consumer-to-consumer (C2C) platform to support FEU student concessionaires. The project aimed to provide a sustainable marketplace with rating and feedback features, enhancing visibility, accessibility, and trust among buyers and sellers within the campus community.
